Which main factors do influence Google ranking?

<p>Relevance</p> <p>How relevant the main keyword is to your business.</p>	<p>Distance</p> <p>How close the client's location is to your business.</p>	<p>Reviews</p> <p>Quantity, quality, recency, authority, variety of reviews.</p>
---	--	---

Relevance and distance are uninfluenced factors. The only factor you can influence to climb the ranking and reach the top 3 positions is **reviews**.

How can you reach the top 3 position?

- Get dozens of high-scoring, 4 or 5-star **reviews**.
- Get **reviews** consistently every week, or better, every day.
- Make sure you always have very recent **reviews**.
- Make sure you get **reviews** left by Local Guides.
- Get text **reviews**, as varied as possible.
